NOW AVAILABLE OTC

A micro enema that offers
Fast and gentle relief of constipation that can start to work in **5** minutes

MICROLAX® is now available OTC
MICROLAX® is unscheduled in all provinces (except Quebec, where it is Schedule III). As of March 1, 2016 it is available over the counter.

What this means for you
Offer your customers fast and gentle relief from constipation and take advantage of greater commercial opportunity based on the success of MICROLAX® in other markets.*

LAUNCHED: MARCH 1, 2016
Visit Microlax.ca (consumer website)

* Based on sales in Australian, Spanish, Russian, Swedish and German markets in 2015.
Offer fast and gentle relief from constipation

What MICROLAX® is used for
- A disposable, fast-acting, stool-softening micro enema
- Helps provide relief of rectal constipation
- Suitable for all ages

Call us for more info
1 800 661-4659

What MICROLAX® contains
Each tube contains 5 mL (one teaspoon) of solution.
Active Ingredients:
- Sodium citrate 90 mg
- Sodium lauryl sulfocacetate 9 mg
- Sorbitol 625 mg
Non-medicinal Ingredients:
- Glycerol
- Sorbic acid
- Water

Usual dose
Adults and children: one tube is usually sufficient, but a second tube may be needed in severe cases.

How it works*
- Loosens the stool and causes bowel evacuation to occur
- Usually works within 5 to 20 minutes (or often more quickly)

Why MICROLAX®?
- Usually effective in 5 to 20 minutes
- Simple to use and hygienic
- Acts gently

Suitable for all ages
(for kids under 3 years, see instructions)
- Only 5 mL
- Not absorbed by the gut

See how to use it at
Microlax.ca
(consumer website)

Compared to other enemas, MICROLAX® contains only 5 mL of liquid*

Indications:
- For rectal constipation; or as directed by a physician to facilitate rectoscopic or sigmoidoscopic examination.

Cautions:
- Do not use if you are allergic to any of the ingredients in this product.
- Do not use in the presence of abdominal pain, nausea, fever or vomiting.
- If symptoms persist, check with your doctor and avoid prolonged use greater than one week, unless your doctor has ordered a special schedule for you.
- Do not use MICROLAX® while using products containing sodium polystyrene sulfonate as there may be a risk of intestinal necrosis.
- If pregnant or breast-feeding, talk to your doctor before use.

* Clinical significance is unknown.
